## DETAILED ACTION

### EXAMINER'S AMENDMENT

1. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

The application has been amended as follows:

- a. Abstract: the number "10" in lines 1-4 and 6 after "tape" has been deleted (the examiner believes that the applicant meant to disclose number "11" instead, but at this point the deletion of number "10" will just correct the typographical error).
- b. Title: The title has been replaced with -- WIDTH AND LENGTHWISE DIRECTION TAPE PRINTING CONTROL DEVICE AND PROGRAM -- .

### *Examiner's Statement Of Reason For Allowance*

2. The following is an examiner's statement of reasons for allowance:

Claims 1-26 are allowed.

Regarding claim 1, the prior art of record does not teach all the combined components and or elements for a tape printing control device, including, print controller that executes print control so that the print image generated by one of the first and second image generators will be printed on the tape-like print medium first and thereafter the print image generated by the other will be printed on the tape-like print medium

Regarding claim 14, the prior art of record does not teach a computer program product comprising computer-readable instructions that cause a computer to execute all the combined steps including, a print control step for-of executing print control so that the print image generated by one of the first and second image generation steps will be printed on the tape-like print medium first and thereafter the print image generated by the other will be printed on the tape-like print medium.

### *Conclusion*

3. The prior art made of record and not relied upon is considered pertinent to applicant's disclosure. The prior art of record does not teach all the combined elements, components and steps as discussed above in the "examiner's statement of reasons for allowance".
4. Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
